## REGISTERED & LAW INFORMATION

### FAQS REGARDING UNAVAILABLE INFORMATION

#### **Why does the local score show as inactive, however the report status shows as active?**

We always provide a score in our reports if a company is active

Local score online searches do not always show the correct status of the companies, unless for specially authorized entities with access to the Registry.

#### **Why are the headquarters of companies not rated?**

The Credit Reports are produced based on the legal entities, for which purpose a Head office and its domestic branches represent one sole legal entity, being for this reason the Credit Report produced on that same entity.

#### **Why is there no shareholders information?**

Depending on the legal form, country, local jurisdiction, not all entities are obliged to disclose the shareholding information for public consultation.

#### **Why are some reports not available instantly on-line?**

Not all companies are available online. Countries in Africa still have records in original form and are not digitised unless a full investigation was produced on that specific entity, a full credit report needs to be freshly investigated and created.
