

Prospects User Guide

Introduction

Prospects gives your organisation access to 50 million business records, spanning 12 countries. Our data is updated daily from over 8,000 official and trusted sources, enabling you to fuel your Business Development Team with the information they need to increase their efficiency and success rates.

By utilising the profile of your successful acquisitions and lucrative long-term customers, Prospects provides you with the ability to find look-a-like organisations, both domestic and overseas. Refine and pre-qualify your sales leads with over 40 criteria, quickly understand the size of your target market and develop an effective strategy to fill your sales pipeline with viable opportunities.

Real-time information from thousands of sources allows you to confidently build your audience of ideal customers and assure their ability to pay you.

Country Coverage

Prospects enables you to find sales leads across 12 countries including:

- UK
- Ireland
- Belgium
- Netherlands
- Italy
- Germany
- France
- United States
- Norway
- Sweden
- Luxembourg
- Denmark

How to access Creditsafe Prospects

Access to Prospects is via the “Prospects” button on the left-hand navigation bar on your Creditsafe website. The product will open in a new tab within your browser. Please note, if you are having problems opening the product in a new tab this could be due to popup blockers.

Product Dashboard

When you first navigate to Prospects you will be taken to the Prospects Product Dashboard.

The Prospects Product Dashboard allows a user to start a new search, view existing orders and details about those orders as well give you the ability to view any previously saved searches.

- 1- New search: Click here to place a new order
- 2- These cards show your previous Prospects orders. Each card will display the following information:
 - a. Name
 - b. Description
 - c. Status
 - d. Date Created
 - e. Expiry Date
 - f. Exported – Whether the order has previously been exported to .csv or .xlsx format
 - g. Last Export Date – the date the file was last exported to .csv or .xlsx
- 3- Load more allows you to view more previous orders if the number of previous orders available to view is more than 5
- 4- View Saved Searches – Allows you to view, load and delete previously saved search criteria

Note: If you are new to Prospects, have not previously placed an order or if previous orders have expired no previous orders will be displayed.

Placing a New Order

To start a new order, click ‘New Search’ from the Prospects Product Dashboard.

After clicking ‘New Search’ you will be taken to the Prospect Search Criteria screen where you can define your desired Prospect Profile.

As a minimum you need to define a geography as part of the search criteria. You can define a geography either by selecting from the geography hierarchy or searching by text and selecting the required geography.

Clear all criteria

At any point you can click 'Update Count' to display the total number of companies that match the current search criteria. If any changes are made after a count is made the count will reset.

When you are happy with the selected search criteria, click 'Order' to progress with your order. No charges will be made at this point.

On clicking 'Order' a popup will open, asking you to confirm your selection of exclusions of previous orders and confirm any applied suppression lists.

When you then click 'Next' you will be shown a count of the companies matching your search criteria for the chosen geographies.

Here you can enter how many companies you would like to include in your order from each country.

At this stage, you will be shown the number of credits you currently have available for the Prospect service. You will be shown the number of credits you will have remaining after this order is processed.

Confirm Order

Once you have confirmed your order, a confirmation message will be displayed. At this stage we are processing your order and will email you when the processing is complete.

Orders usually take a few minutes to process.

When you next visit the product dashboard you will see the order is in a “Pending” status – illustrated by a faded appearance to the Order Card

You will be unable to access the contents of the order until the order processing has been completed. You will receive an email notification once the order is complete, at this point please refresh your Prospect Product Dashboard.

Once the order is complete the status will update to Completed, and the Order Card will be in full colour.

Save Search Criteria

If you have specific search criteria that you would either, like to use across multiple orders or wish to save work in progress and return to complete the order at a later date, then this is possible through the “Save this search” functionality.

In order save your search criteria, click on ‘Save this search’ within the Prospect Search Criteria screen. This is located on the left hand side of the screen.

[Return to Dashboard](#)

Once you click ‘Save this search’ a popup will open prompting you to provide a name and description for the search.

Suppression File Upload

If you wish to exclude a specific list of companies from an order, then this can be done using an exclusions list. There are two ways to create a list to exclude:

1. **Through our Data Cleaning service** – saving you time not needing to upload a file multiple times. Please contact your account manager to utilise this option.
2. **Upload a suppression file directly to Prospects** – This method is detailed here below.

Companies to be excluded

Select one or more company lists to exclude

View Full Company Report / Financials / Group Structure

Gain a deeper understanding of this business by viewing it's full business report. Creditsafe reports are filled up to date information and rich insights to inform stronger sales conversations and reveal buying signals.

To gain greater insight on a prospect, to understand relationships with other companies or to gain further financial details click through to view the company report. This is possible in two ways:

1. Select the banner at the bottom of the Prospect Data popup, or;
2. Click the down arrow next to the Prospect Record from the order details screen and select ‘View Company Report’

The diagram illustrates two methods to access the company report. The top method shows a red button labeled 'Prospect Data' next to a white button labeled 'View company Report'. The bottom method shows a red button labeled 'Prospect Data' next to a red button with a white downward arrow, indicating a dropdown menu.

Note: orders placed on the old Prospects product have been migrated to the new tool. Viewing these orders is slightly different behaviour. The migrated orders will still appear on your Prospects Product Dashboard however you will not be able to benefit from viewing these from within our tool. When a migrated order is selected to view, the .xlsx file that was available on the previous product will be downloaded to your device.

Export Order

In addition to being able to view the company from within the user interface, you are able to download your Prospects Order in two different file formats:

1. .csv
2. .xlsx

You can do this by clicking the 'Export Prospects' button in the top right corner of the Prospect Order Details screen

Once selected, you can then choose the file format you wish to download your order in. Once you have selected your chosen file format click 'Export To Device'. The file will then be downloaded to your device in your chosen format.

View Selection Criteria

Once an order is placed it is easy to forget what criteria you had previously selected to arrive at the order. From within the Prospect Order Details page you can select 'View selected criteria' button from the top right of the page.

This will open a popup displaying the criteria you used to place the order.
