

# There We Grow: US Data Accomplishments

Our US data is getting stronger, smarter and more capable of helping our customers make smart business decisions. Here's a snapshot of what we've been up to recently.

## Key Growth Stats

Creditsafe's data team has worked tirelessly to strengthen the volume, coverage and quality of our US database. Over the last year, we've seen:

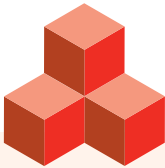

600K

EIN updates

50M

Headquarter/branch groupings

200M

Updates to over 60M companies

## Unmatched Payment Data Initiative

Through intensive data cleaning and a lot of hard work from the data team, we've been able to add payment data to existing companies. Customers now have more company information available for millions of businesses and our reports are also more robust as a result.

100K

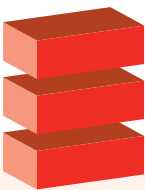

Unmatched records have been identified as company creation candidates – that means even more data for customers down the line.

40M

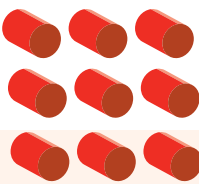

Rematched payment experiences.

## Strengthening Our Reach

You didn't think we were finished, did you? We're always working to strengthen our data and help customers make more informed business decisions.

Automated bankruptcy reconciliation

Deriving SIC codes from company names

We've linked 14 million new headquarter and branch groups in the last 3 months
